

The Golden CEOs

Golden Opportunities Fund is Saskatchewan's first and largest provincial Labour Sponsored Venture Capital Fund and is one of the most successful LSVCCs in Canada. Golden Opportunities' strength lies in its investee companies which are led by outstanding individuals. The Golden CEOs is a series that will highlight some of the people behind the most promising companies in Saskatchewan.

Todd Lahti, President and CEO, Can Pro Ingredients Ltd.

As President and CEO of MCN BioProducts Inc. ("MCN"), Todd Lahti became familiar with the company's proprietary canola processing technology long before he founded Can Pro Ingredients Ltd. ("Can Pro") in 2007. As Can Pro's first President and CEO, Todd is now using MCN's patented technology to manufacture canola protein concentrates, fiber, and carbohydrate fractions for the feed industry. Can Pro also manufactures feed grade oil which can be used in aquafeeds, animal feeds, and biodiesel. The protein concentrate has received significant attention from shrimp, trout, salmon, and piglet feed manufacturers worldwide looking to replace fish meal in their formulas since the supply of the meal has not kept pace with rapidly growing demand in the aquaculture industry.

Del Mondor, President and CEO, Blackstone Petroleum Ltd.

Del Mondor is the President and CEO of Blackstone Petroleum Ltd. ("Blackstone"), a private oil and gas exploration and development company located in Weyburn, Saskatchewan. The Mondor family has been active in the oil and gas industry in southeastern, Saskatchewan for over 50 years and has built several successful oil and gas exploration, development, and service companies. In 1996, Del and his brother purchased Viking Petro Corporation ("Viking") and in the five years that they managed Viking it experienced a 10 fold increase in value. In that same year, Del also founded Brownstone Resources Ltd. and remains the President today. The projects that his newest operation, Blackstone is involved in are geographically located near Midale, Saskatchewan with a strong focus on reserves in the Midale Zone. This reservoir is one of the richest and most well established zones to draw oil from and is expected to produce through the next 40 years.

John Hyshka, CFO and COO, Phenomenome Discoveries Inc.

John Hyshka is the CFO and COO of Phenomenome Discoveries Inc. ("PDI"), a truly remarkable metabolomics research company working towards a healthier future. Since inception in 2000, PDI has conducted hundreds of successful biomarker discovery projects, in addition to growing its internal collaborative research network. PDI made several announcements in late 2006 including its development of a novel serum-based diagnostic test for the identification of colorectal cancer ("CRC") available in Canada and Japan. Colorectal cancer comprises one tenth of the global cancer burden, and is the third most common malignancy in the world. According to the National Cancer Institute, the United States experienced an estimated 153,760 new cases of colorectal cancer and 52,180 deaths from the disease in 2007 alone. As well, it has incorporated a personalized metabolic health research monitoring subsidiary which will open its first research center in Saskatoon in 2008.

Kelly Kazakoff, President and CEO, Jump.ca Wireless Supply Corp.

During the seven years that Kelly Kazakoff has been President and CEO of Jump.ca Wireless Supply Corp. ("Jump.ca") he has truly experienced what it is like to offer one of the fastest growing consumer products in history – wireless phones! Today, over 47% of all phone connections in Canada are wireless accounting for approximately 27% of the \$33 billion in annual revenue from the Canadian telecom sector. In 1990, Jump.ca partnered with SaskTel to take advantage of the tremendous growth opportunity in the wireless and Internet markets. The Company is now a leader in this rapidly growing segment and has grown from one location to a multi-location enterprise with 13 retail operations spread throughout three major centers in Saskatchewan. The Provincial market alone shows significant room for growth as the current penetration rate of 52% is expected to grow to 70% in the next few years.

Raymond Chiarastella, President and CEO, Bonus Energy Ltd.

Raymond Chiarastella and the other four members of his management team definitely have enough experience in the oil and gas industry to tell a story or two! As President and CEO of Bonus Energy Ltd. ("Bonus"), Raymond has over 29 years of industry experience in management positions of company start-ups. Collectively, his management team has more than a century of expertise finding and developing oil and gas properties and has an excellent track record of value creation. They have been involved with numerous successful oil and gas companies that have experienced tremendous production growth and positive share performance, taking many of these companies through successful exits. In 2006, Bonus was founded to operate as a private Canadian oil and gas company and shortly after expanded its operations into Saskatchewan through a Saskatchewan-based subsidiary, Bonus Energy Saskatchewan Ltd. The new Company's main focus is in the Western Canadian Sedimentary Basin.
